ERP SOFTWARE- SCHOOLPAD
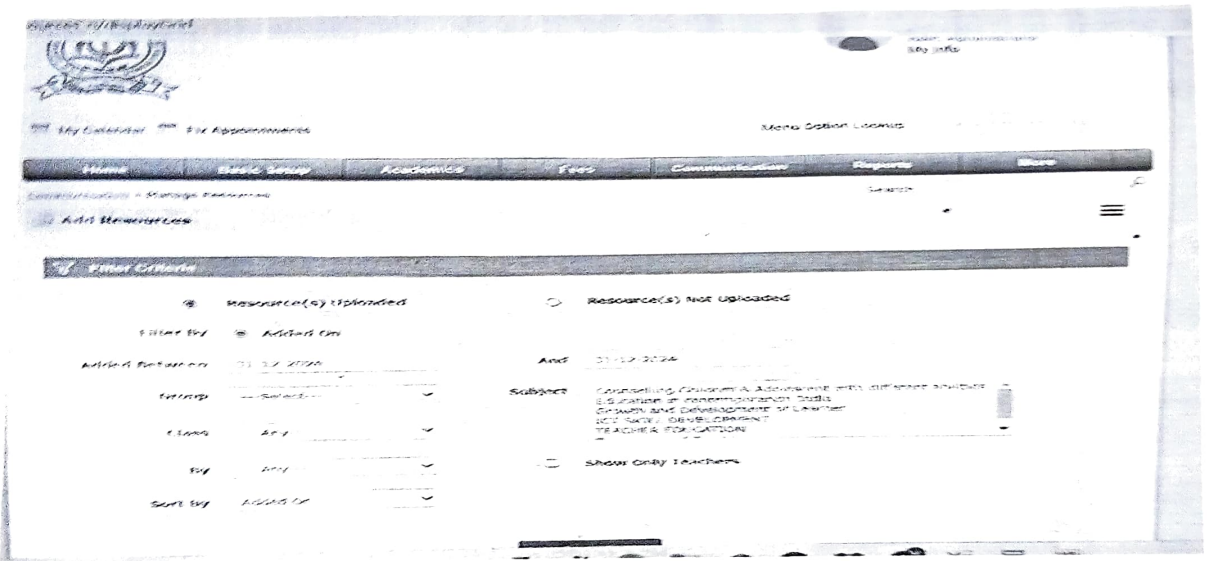

LMS or Learning management system is software designed to manage and support efficient learning. College has its own leaning management system SchoolPad which is used for creating, delivering, tracking and reporting educational courses and outcomes. It keeps records of all important data of students. It helps the instructors to work efficiently, it also cater the needs of learner. Teachers create their own contentin various formats and sharer various resources for diverse learning.

Teacher uploaded content and interact with teacher and peers through chat. Teacherupload assignment directly. LMS is helpful to keep record of attendance and fee of students. Online payment option is available on college LMS. Teacher and students can access LMS through laptop and mobile by login with registered id.
